

NORTHEAST SUSTAINABLE ENERGY ASSOCIATION

## Sustainability Workshops

serving professionals, building knowledge

### Residential Retrofits for Energy Efficiency and Sustainability

Larry Harmon, Air Barrier Solutions, LLC

This spring we are offering one of the most popular workshops in our annual BuildingEnergy09 (BE09) conference held in March in Boston. This full day workshop continues to be the most popular at NESEA for the last four years. One of the nation's most experienced, and possibly most animated presenters, walks the audience through a nuts and bolts approach to making existing 1-4 family homes in cold climates more energy efficient. Join Larry Harmon in his no-nonsense approach to air barrier sealing, tighter envelopes, better insulation, and finding the waste in homes. Learn how to get the most bang for the buck and reap substantial increases in comfort, affordability, resource efficiency, health, safety, and durability. Workshops are AIA accredited for 7 continuing education units. A continental breakfast and lunch are included.

### Spring Workshop Date/Locations

May 27 - Brattleboro, VT  
Marlboro College Graduate Center

June 2 - Exton, PA  
Smart Energy Initiative

June 4 - Berlin, CT  
Northeast Utilities,  
Berlin Auditorium

**Registration** is taken on a first come basis and is limited. To register go to the NESEA website [www.nesea.org](http://www.nesea.org) and click on conference and workshops, then click on sustainability workshops and webinars. Or enter this URL into your browser: <http://www.nesea.org/conferenceworkshops/workshops>.

**Professional Development.** NESEA's sustainability workshop series is aimed at serving professionals and building their knowledge with in-depth, professionally accredited workshops on a wide range of critical topics. These professional development trainings are held throughout NESEA's 10-state territory.

**Our Mission.** To advance the practical application and adoption of sustainable energy, whole systems thinking, and suitable energy efficiency and renewable energy technologies by supporting professionals in the Northeast who use these practices in their work.

NESEA would like to thank its many sponsors for their commitment to the practice of sustainability and dedication to the association. If you would like to financially support the Sustainability Workshop Fall 09 and/or Spring 10 Series, contact Pamela Lester to arrange: email [plester@nesea.org](mailto:plester@nesea.org) or phone (413)-774-6051 x 14. Our 501(c)(3) non-profit status makes all gifts tax deductible.
