

# Clean Energy for a Clean Environment (CECE)

## Earn a Patch!

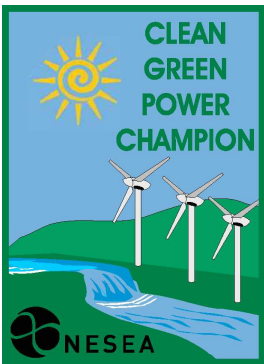

Youth that complete all three steps—Learn, Explore, and Act—are eligible to receive a Clean Green Power Champion or Wind Wisdom patch and award certificate from the Northeast Sustainable Energy Association. Certificates are downloadable at each patch program webpage as are patch order forms. Patches are free for Massachusetts residents and \$5 for non-residents. Requirements for the Girl Scout patches are the same, but a different requirements worksheet and order form are used.

## Clean Energy for a Clean Environment!

Western MA teachers receive free training in energy education

through grant funding from the Western Massachusetts Electric Company.

Kids everywhere ages 5- 18 can earn patches & certificates:

**Clean Green Power** and **Wind Wisdom**

An exciting real-world introduction to renewable energy  
through activities, site visits, projects, and outreach.
